

CONVERGE FINANCE

Brand Bible

Version 1.0 • April 2026

The complete operating system for the Converge brand — strategy, identity, voice, colour, typography, digital presence, and governance.

Prepared by Venturizer Virtual CMO
for Gaurav Budhrani and Omar Hussein,
Co-founders, Converge Finance

How to use this document

This Brand Bible is the single authoritative reference for the Converge brand. It supersedes all prior brand guidelines. Every team member, agency partner, and contractor who creates content, designs assets, or speaks for Converge must be onboarded on this document before beginning work.

STAKEHOLDER	CHAPTERS TO PRIORITISE	MINIMUM READ TIME
Founder / Executive	1, 2, 3, 9	12 minutes
Marketing	2, 3, 5, 9, 10	25 minutes
Sales	3, 7, 9, 10	20 minutes
Design / Agency	4, 5, 6, 8, 11	30 minutes
Engineering / Product	4, 5, 6, 8	20 minutes

Brand Foundation

Why Converge exists and what it stands for

1.1

Mission

To eliminate the cognitive bottlenecks that slow, distort, and expose credit decisions — so lenders can originate more loans with higher confidence, lower risk, and the same team.

1.2

Vision

To become the credit intelligence layer that every real estate-backed loan passes through — making origination accurate, auditable, and fast by default.

Category

Converge occupies the category of “Credit Intelligence Platform.” We are not AI-powered underwriting. We are not document automation. We are not a workflow platform. We are the intelligence layer that performs the cognitive work of credit decisioning: entity reconstruction, conflict resolution, policy matching, and fraud signal detection.

Founding Conviction

“We started Converge because lenders don’t lack data. They lack clarity. Our conviction is that the right intelligence layer will unlock a step-change in credit performance.

GAURAV BUDHRANI

“Credit decisions fail when cognitive work is manual. Converge exists to bring order to complexity — so great teams can move faster with greater confidence.

OMAR HUSSEIN

Synthesis Premise

	GAURAV — THE AESTHETIC	OMAR — THE INTELLIGENCE
CONTRIBUTION	Shapes how the world sees Converge.	Defines how Converge thinks.
CHARACTER WORDS	Refined, modern, trustworthy, premium, understated.	Precise, rigorous, analytical, relentless, pragmatic.
BRAND NORTH STAR	To be the most trusted brand in credit intelligence.	To deliver the most accurate credit decisions at scale.
PRIMARY FEAR	Being ordinary.	Being wrong.

Together: Converge looks like Gaurav and thinks like Omar.
The brand is both trustworthy and formidable.

Brand Positioning

How Converge is defined in the market

2.1 POSITIONING STATEMENT

“Converge is the non-bank real estate lender built to originate complex loans at scale. Our credit intelligence layer reconstructs entities, resolves document conflicts, and matches deals to credit policy before the LOS opens. Unlike manual underwriting teams or generic AI tools, Converge provides credit intelligence with fully auditable, traceable outputs.

2.2 MESSAGING HIERARCHY

	CORE MESSAGE	USAGE CONTEXTS
TIER 1 COMPANY	We are the non-bank real estate lender built to originate complex loans at scale.	Company overviews, investor decks, press, conferences
TIER 2 PRODUCT	Converge is the credit intelligence layer that reconstructs entities, resolves conflicts, and matches deals to credit policy.	Product one-pagers, website, solutions sheets, demos
TIER 3 USE CASE	We identify risk early and approve the right deals faster, across every borrower, entity, and structure.	Client conversations, vertical use cases, case studies
TIER 4 PROOF	Our intelligence is fully auditable, traceable, and built for enterprise credit governance.	RFPs, technical reviews, due diligence, audits

2.3 COMPETITIVE DIFFERENTIATION

AGAINST	CONVERGE'S FRAME	THE LINE
Manual underwriting teams	We multiply expertise and consistency.	More deals reviewed. Lower variance. Better outcomes.
Generic AI / LLM tools	We are purpose-built for credit intelligence, not chat.	Not a generalist. A precise instrument for credit decisions.
Workflow automation	We think before we route.	Intelligence first. Workflows second. Decisions, not just movement.

Brand Character

The persona, the three words, and the six traits

3.1 THE BRAND IN ONE PARAGRAPH

IF CONVERGE WERE A PERSON

Converge is the most prepared person in every credit committee meeting. They arrive early. They know the borrower, the entities, the inconsistencies, and the risk. They connect documents others overlook, explain the why behind the numbers, and match every deal to policy with clarity and confidence. They don't guess. They verify. They don't improvise. They operate with discipline and leave a trail anyone can follow. Trusted by credit leaders. Relied on by operators. Built for scale.

Precise. Diligent. Authoritative.

Three things Converge would never do...

3.2 THE SIX BRAND TRAITS

Wicked precise

Converge sees what others miss and gets it exactly right. From entity resolution to policy matches, our precision reduces risk, eliminates rework, and builds confidence in every decision.

Minimally authoritative

Converge leads with facts, not ego. We are definitive without being domineering—earning trust through clarity, logic, and a consistent point of view, not volume.

Forward-operating

Converge thinks ahead and moves early. We surface risk before it becomes friction and create speed by solving problems at the start, not handing them off downstream.

Comprehensively diligent

Converge leaves no gap unexamined. We connect every document, validate every detail, and maintain complete auditability—so nothing falls through and everything holds up.

Enterprise-native

Converge is built for the complexity, scale, and governance demands of enterprise lenders. We integrate deeply, operate securely, and adapt without compromise.

Transparently intelligent

Converge makes intelligence explainable and auditable. Every insight, match, and recommendation comes with clear reasoning and a verifiable source trail.

Color System

Six colours derived from persona psychology, no prior brand colors.

4.0 OUR SIX COLOURS

A disciplined palette built from persona psychology to express trust, clarity and intelligence.

MIDNIGHT #0A0F1C PANTONE 5395 C ROLE Primary brand persona USES EXAMPLES • Hero backgrounds • Full - bleed panels • Navigation bars • Footers	DEEP SLATE #162032 PANTONE 7546 C ROLE Secondary brand surface USES EXAMPLES • Card & modules • Side panels • Tables & charts • Section breaks	PARCHMENT #F4F1EB PANTONE 7527 C ROLE Primary editorial surface USES EXAMPLES • Long-form content • Page backgrounds • Print stock • Reports & docs
STEEL #8A9BAE PANTONE 7544 C ROLE Supporting neutral USES EXAMPLES • Icons & strokes • Dividers • Disabled states • Subdued text	VERIFIED #0B6B60 PANTONE 7733 C ROLE Single accent (one per view) USES EXAMPLES • CTAs & buttons • Key highlights • Link & indicators • Active states	CHARCOAL #2D3D4F PANTONE 7545 C ROLE Structural neutral USES EXAMPLES • Headings on light • Body text (secondary) • Icons & UI chrome • Borders & grids

4.1 COLOUR PAIRING RULES

Clear rules keep our communications consistent, legible and unmistakably converge.

CORRECT USAGE EXMAPLES

1

One accent per view

Verified appears exactly once per visual plane at full saturation.

Markets move.

TYPOGRAPHY

5.1 TYPE SCALE

LEVEL	SIZE (SCREEN / PRINT)	TYPEFACE	WEIGHT	TRACKING	USAGE
Display	36–56px / 40–72px	Neue Haas Grotesk Display Pro	55 Roman, 75 Bold	-0.01em	Brand statements, section headlines, hero text
H1	28–40px / 28–48px	Neue Haas Grotesk Display Pro	75 Bold	-0.01em	Page titles, major section headings
H2	22–28px / 20–28px	Neue Haas Grotesk Display Pro	55 Roman	0em	Subsection headings, deck headers
H3	18–22px / 16–20px	Neue Haas Grotesk Display Pro	55 Roman	0em	Card titles, minor headings
Body L	16–18px / 11–12pt	Tiempos Text	Regular	0em	Long-form body, articles, reports
Body M	14–16px / 10–11pt	Tiempos Text	Regular	0em	Secondary body, captions in print
Label	12–14px / 9–10pt	DM Sans	Medium	0.02em	UI labels, buttons, form labels, nav
Mono	13–16px / 9–11pt	IBM Plex Mono	Regular	0em	IDs, codes, references, technical data

5.2 TYPOGRAPHY RULES

ALWAYS

- Use sentence case for headings.
- Left-align all body text.
- Limit to a maximum of two typefaces per page.
- Use a minimum line-height of 1.5 for body text.
- Use Tiempos Text for all long-form content on Parchment.
- Use IBM Plex Mono for IDs, codes, and technical references.

NEVER

- Use more than three typefaces in any deliverable.
- Use Neue Haas Grotesk Display Pro as body text.
- Use Tiempos Text in UI or product interfaces.
- Use bold italic or italic for body text.
- Justify body text.
- Use type sizes below 7px.

Logo & Mark

Principles for using and protecting the Converge identity

This chapter defines the strategic principles and usage rules for the Converge logo and symbol. Final logo artwork is produced and supplied separately.

6.1 LOGO PHILOSOPHY

"Precision creates trust.
Simplicity scales authority."

01 Geometric precision over organic expression.

Every element is deliberately constructed for clarity, balance, and technical perfection.

02 Minimal footprint.

A restrained mark that communicates authority with the least visual noise.

03 One mark, two contexts.

One unified identity engineered to perform in brand lockups and as an isolatable symbol.

6.2 APPROVED COLOUR VERSIONS

Primary (reversed)

Use on Midnight and other dark brand backgrounds.

Primary (on light)

Use on Parchment and other light brand backgrounds.

Accent mark

Use the isolatable mark for navigation, favicons, and subtle applications.

Emboss / print

Use for premium print applications with metallic foil or blind emboss.

Greyscale

For single-colour print and uncontrolled reproduction.

Verified mark used only in CTA contexts.

6.3 CLEAR SPACE & MINIMUM SIZE

X Minimum clear space equals the cap-height of the wordmark's first character (the "C").

Minimum size (screen)

80px wide

Below this size, use the isolated mark only.

Minimum size (print)

20mm wide

Below this size, use the isolated mark only.

6.3 CLEAR SPACE & MINIMUM SIZE

Do not stretch.

Do not use too small.

Do not use on wrong background colours.

Do not apply drop shadows.

Do not rotate.

Do not place inside a shape.

Do not use unapproved colours.

Do not combine with other marks or logos.

Grid System

Structure that scales. Consistency that composes.

WEB LAYOUT

PROPERTY	SPECIFICATION	VISUAL REFERENCE
Columns	12-column grid	
Max content width	1200px	
Gutter	24px	
Long-form max	740px	
Section padding	80-120px	

PRINT / DOCUMENT LAYOUT

PROPERTY	SPECIFICATION	VISUAL REFERENCE
Columns	Single or two-column	
Page size	A4 or US Letter	
Margins	0.75" on all sides	
Between columns	0.25"	
Max body copy column	4.5"	
Between sections	0.55"-0.75"	

7.2 DARK-LIGHT ALTERNATION

Our defining structural pattern. It creates hierarchy, focus, and clarity.

SECTION	BACKGROUND	HEADING COLOUR	BODY COLOUR	ACCENT
① Hero / Cover	MIDNIGHT #0A0F1C	White #FFFFFF	Light Gray #C9CDD6	Teal #0B6B60
② Content (primary)	Warm White #F7F5F2	Ink #0F1724	Slate #334155	Teal #0B6B60
③ Content (secondary)	Pale Gray #F1F3F6	Ink #0F1724	Slate #334155	Teal #0B6B60
④ Feature callout	VERIFIED #007A6E	White #FFFFFF	Mint #CCF1E7	White #FFFFFF
⑤ Data / Platform	DEEP SLATE #162032	White #FFFFFF	Light Gray #C9CDD6	Teal #0B6B60
⑥ Footer	CHARCOAL #2D3D4F	White #FFFFFF	Light Gray #C9CDD6	Teal #0B6B60

7.3 WHITE SPACE RULES

“

White space is not what is left over. It is what makes the rest work.

- ① **White space is not emptiness**
It is intentional space that gives hierarchy, clarity, and breathing room to every element.
- ② **Data as visual language**
Let structure, contrast, and scale communicate. Reduce noise. Reveal insight.
- ③ **One accent per visual plane**
Use a single accent to guide attention and reinforce priority.
-  **No decorative elements**
No gradients, textures, patterns, or flourishes unless they serve information.

Clear editorial spacing

Data-led visuals

Tone of Voice

How Converge speaks across every channel and context

8.1 THE FOUR VOICE PRINCIPLES

Declarative

Definition

We state facts with confidence. No hedging, no filler, no fluff.

Test

Would we be proud to stand behind this in a boardroom?

Quantified

Definition

We put numbers to work. Specifics build trust and clarity.

Test

Does this include a number, metric, or measurable outcome?

Present-tense

Definition

We write in the present. It keeps our message immediate and alive.

Test

Is this written as something happening now?

Domain-fluent

Definition

We speak the language of finance. Precise terms, used naturally.

Test

Will our audience recognize this as insider-confident?

8.2 DO AND DON'T REFERENCE

CONVERGE SAYS

- We understand the documents.
- Seven-layer entity review: 4 minutes."
- Your portfolio, unified."
- Cash flow, clearly forecast."
- Built for finance teams."
- Audit-ready by design."
- See the signal. Skip the noise."

CONVERGE NEVER SAYS

- Revolutionary AI platform.
- Like asking ChatGPT about your loans."
- Best-in-class intelligence."
- Game-changing solution."
- Disrupting the status quo."
- AI that thinks like a human."
- 100% accurate, guaranteed."

8.3 BEFORE AND AFTER: VOICE IN PRACTICE

CONTEXT	BEFORE (AVOID)	AFTER (USE)
Homepage hero	AI-powered solution for modern finance teams.	Give finance teams clarity across every document.
Cold outreach	Hope this finds you well. I wanted to introduce our platform...	Most teams lose hours to manual document review. We cut that time.
Feature description	Our platform leverages advanced AI to...	We extract, validate, and link key financial data in seconds.
Testimonial prompt	How would you describe your experience with our solution?	What changed for your team after Converge?
Demo CTA	Request a demo to see how our platform works.	See Converge in action. Book a 20-minute demo.
Case study headline	How we helped a leading firm transform.	How [Firm] cut review time by 68% and improved accuracy.

8.4 TONE BY CONTEXT

CONTEXT	TONE ADJUSTMENT	EXAMPLE
Homepage / brand	Confident, clear, benefit-first	Give finance teams clarity across every document.
Sales outreach	Direct, relevant, time-aware	We cut document review time so your team can move faster.
Product demo	Specific, instructional, visual	Here's how we extract and link data in under 5 minutes.
Case study	Outcome-led, credible, concise	68% faster review. Zero missed material items.
Release notes	Precise, factual, impact-focused	Entity matching is now 2x faster on large portfolios.
Investor narrative	Measured, data-backed, durable	Scalable infrastructure. Expanding margin profile.
Error messages	Calm, human, actionable	We couldn't read that file. Try a PDF or image under 50MB.

Product Identity

9.1 CreditOS

CreditOS is the intelligence **engine**.

- Not a workflow tool.
- Not a document parser.
- Not a data warehouse.

Always written as **CreditOS**.

THE FIVE CREDITOS LAYERS

9.2 THE THREE INTELLIGENCE LAYERS

9.3 INDUSTRY VERTICALS

Digital Standards

10.1 Website: convergefi.com

The screenshot shows the Converge website's homepage. The header includes the Converge logo and navigation links: Product, Intelligence, Solutions, Proof, Resources, and Company. A prominent button says "See it on a live deal". The main content area features the headline "Credit intelligence for lenders who originate at scale." followed by a sub-headline: "We turn messy loan files into structured, traceable, credit-ready decisions before your LOS opens." Below this are two buttons: "See it on a live deal" and "Explore the platform". To the right, a "Deal Summary" card displays details for Summit Development LLC, including a loan amount of \$18,250,000, property type of Multifamily, LTC of 68%, and LTV of 1.42x. It also lists risk signals: Sponsor Liquidity (Strong), Market Exposure (Moderate), and Construction Risk (Low). At the bottom, four key metrics are highlighted: 2.3M+ Loans analyzed, 98.7% Extraction accuracy, 76% Faster decisioning, and \$12B+ Capital enabled.

WEBSITE STANDARDS

- ✓ **Navigation:** Rename "Impact" to "Proof" and add "Intelligence" to primary nav.
- ✓ **Hero headline:** "Credit intelligence for lenders who originate at scale."
- ✓ **Hero sub-headline:** "We turn messy loan files into structured, traceable, credit-ready decisions — before your LOS opens."
- ✓ **Primary CTA:** "See it on a live deal"
- ✓ **Proof metrics:** Show tangible, outcome-focused metrics.
- ✓ **Product section:** Rename "Products" to "Platform".
- ✓ **Agent naming:** Rename "Assistant" to "Intelligence".
- ✓ **CreditOS section:** Position as the intelligence engine with the five layers.

10.2 EMAIL STANDARDS

Outreach Email Structure

- Subject Line**
Short, relevant, outcome-oriented.
- Personalized Opening**
Reference their role, company, or a recent signal.
- Why Now**
Connect to a specific pain, trigger, or priority.
- Proof Point**
One metric, one outcome, one example.
- What We Do**
One sentence: how Converge helps.
- Call to Action**
Invite to a live deal or a 15-minute call.
- Signature**
Human, with title and company.

WHAT EMAILS NEVER INCLUDE

- ✗ Attachments
- ✗ Brochures
- ✗ Generic templates
- ✗ Feature dumps
- ✗ LOS comparisons
- ✗ Overly technical jargon
- ✗ Unverifiable claims
- ✗ More than one ask
- ✗ Long paragraphs

10.3 LINKEDIN & SOCIAL

Content Pillars

Proof post

Share metrics, outcomes, and deal-level impact.

Industry observation

Comment on trends, shifts, or risk signals.

Founder perspective

Share lessons, takes, and credit leadership thinking.

CreditOS capability

Explain a layer, agent, or intelligence advantage.

Case study amplification

Highlight wins, workflows, and measurable results.

Content Standards

11.1 CASE STUDIES

SECTION	✓ OUR CONTENT STANDARDS (ORIGINAL)	✗ WHAT TO AVOID
 Customer context	• Industry, product mix, loan volume • Pain in their own words • Why they sought a solution	• Vague or anonymous clients • Overly broad industry claims • Generic pain statements
 The before state	• Manual steps and handoffs • Errors, delays, rework • Cost, risk, and opportunity impact	• Unquantified problems • Blame-heavy language • Overstated or dramatic claims
 The click moment	• What changed their mind • Proof point that mattered • Why Converge felt different	• Vague "they saw a demo" • Feature dump • Making it about price
 The after state	• Outcomes with numbers • Time, cost, quality, risk improvements • Business impact and scale	• Short-term or small-sample results • Soft or subjective outcomes • No before/after contrast
 The customer quote	• Short, specific, human • Says what changed • Credible and attributable	• Marketing jargon • Over-edited or long quotes • Quotes that don't prove impact

11.2 SALES DECK STRUCTURE

1	The one sentence	Open with the brand sentence. Make the outcome undeniable.
2	The market truth	State the reality of credit work today with a data-backed insight.
3	The problem, quantified	Show the cost of the status quo in time, dollars, and risk.
4	CreditOS architecture	Introduce CreditOS and how it fits before the LOS.
5	The three intelligence layers	Explain the three intelligence layers and how they work together.
6	Proof	Case studies, metrics, customer quotes, and third-party validation.
7	Why now	Market shift, regulatory pressure, AI inflection—reasons to act now.
8	The next step	Clear call to action, next meeting, pilot, or evaluation plan.

12 BUYER PERSONAS

	CRO / Head of Credit (Economic Buyer)	Lead Underwriter (Product Champion)	Head of Operations (Implementation Gatekeeper)
TITLE EXAMPLES	Chief Risk Officer, Head of Credit, EVP Credit, Chief Lending Officer	Lead Underwriter, Senior Underwriting Manager, Portfolio Risk Manager	Head of Operations, Director of Loan Operations, VP Operations
PRIMARY CONCERN	Reduce risk and loss while improving returns and scale.	Make better decisions, faster—with confidence and auditability.	Operational efficiency, data quality, adoption, and reliability at scale.
CLICK MOMENT	Sees measurable lift in risk-adjusted returns and loss reduction with clear ROI.	Experiences how CreditOS surfaces what's missed and makes decisions defensible.	Understands how it integrates cleanly, reduces ops burden, and delivers reliably.

CRO / HEAD OF CREDIT	LEAD UNDERWRITER	HEAD OF OPERATIONS
 WHAT KEEPS THEM AWAKE Credit losses, concentration risk, regulatory scrutiny, and capital efficiency.	 WHAT KEEPS THEM AWAKE Missing risk in messy files, tools that slow them down, and auditability.	 WHAT KEEPS THEM AWAKE System sprawl, data quality, change fatigue, and operational disruptions.
 CLICK MOMENT WITH CONVERGE When they see validated outcomes that move the P&L and risk metrics.	 CLICK MOMENT WITH CONVERGE When they see how CreditOS catches what others miss—faster.	 CLICK MOMENT WITH CONVERGE When they see a proven implementation path with minimal lift.
 NEVER SAY... "This will eliminate risk." or "AI replaces your policies."	 NEVER SAY... "It's just a black box." or "You don't need to review this."	 NEVER SAY... "It's plug and play." or "You'll have to change everything."

13 BRAND GOVERNANCE

13.1 THE FIVE ANTI-PATTERNS

 Looking like an LOS We are not a system of record.	 Being an LLM wrapper We deliver structured intelligence, not prompts.	 Workflow automation framing We provide intelligence, not task routing.	 Over-promising before proof Lead with proof. Scale the story after results.	 Sounding like a startup We speak with confidence, not hype.
--	---	--	--	---

13.2 CONTENT REVIEW CHECKLIST

VOICE & MESSAGING	VISUAL & DESIGN	ANTI-PATTERN CHECK
☐ Clear and credible	☐ On-brand system used	☐ Not an LOS
☐ Customer-first	☐ Readable and scannable	☐ Not an LLM wrapper
☐ Outcome-oriented	☐ Data shown accurately	☐ Not workflow automation
☐ No hype or jargon	☐ Charts and icons add clarity	☐ No over-promising
☐ Converge-first language	☐ Accessible and consistent	☐ Not start-upy

13.3 APPROVAL PROCESS

ASSET TIER	EXAMPLES	APPROVAL REQUIRED	TIMELINE
Tier 1	Website, pitch decks, product one-pagers	Brand + Legal	3-5 business days
Tier 2	Case studies, blogs, email campaigns	Brand	2-3 business days
Tier 3	Collateral, templates, social posts	Marketing Lead	1-2 business days
External agency	Any external creative execution	Brand + Legal	5-7 business days

THE BRAND IN ONE SENTENCE

Converge is the credit intelligence layer that turns messy loan files into structured, traceable, credit-ready decisions — before your LOS ever opens.

Every word of this Brand Bible exists to make that sentence more credible, more demonstrable, and more defensible.

Thank you

For the opportunity to shape the
Converge brand system.

This Brand Bible is designed to guide every
expression of Converge with clarity,
consistency, and confidence.
